HERE'S the POINT

By SPENCE HELD

The mailman brought a postcard to the office the other day from a business firm in Syracuse, N. Y., addressed to the "Pensacola News," San Diego, Calif.

That's not too close; however, it might have been worse. Pepsicola News, for instance.

Yeah, and I received a mailed announcement that an adult class in "Hoog Rug Making" will be started somewhere Sept. 15.

Hog Rug, maybe?

Aw, heck, what would a hog do with a rug . . . I know—Hook Rug!

John Dawson, back, and Jerry Ohlin, lineman, from last year's Point Loma High football team, have reported for practice at San Diego State College.

They're both good boys and should do all right at State.

The local beach really got a play last week during the heat wave. I looked it over about 6:30 p.m. one day, when the crowd had thinned somewhat, and there must have been several thousand persons utilizing surf and sand during the dinner hour.

Back in September, 1939, San Diego had a week of 100-degree heat with color and sound effects (thunder and lightning) Also, we caught the tail end of a tropical gale that threshed the palm trees like crazy.

Lightning struck a street car, smashing a window and setting the car afire . . . Nobody hurt, as I remember, but the motorman was flabbergasket. Maybe he blew one, I don't know.

* * *

Last week we left Ruth, my traveling wife, in Huancayo, a Peruvian town high in the Andes.

Well, on the return trip down to Lima, on the coast, she stayed awake and saw every rock, llama, Indian, etc., and didn't miss any of the 65 tunnels, 61 bridges and numerous switchbacks on the all-day ride.

"When I left Lima for the U. S. Aug. 31," she said, "my sister Winnie was standing at the airport in a fur coat. When I arrived at Miami, Fla., next morning, it was like an oven."

She blew into Miami wtih $3 and a suitcase stuck together with scotch tape. Luckily, she had cousins in Palm Beach who "forced" 10 bucks on her.

* * *

At Miami, Fla., a cotton-pickin' clerk in the airline office caused an unnecessary day's delay. (Nothing like this had happened in Latin America.)

"It was a fascinating trip," she said, "but it's good to be back where people speak English; where all the kids can go to school, and where almost everybody's face is clean . . . I guess I'll be satisfied to stay home awhile now."

(That makes two of us. If there's a better place than Point Loma, I ain't interested.)

Motorists Urged To Watch For Small Children

"Keep an eye on all small fry."

This was the appeal made to motorists today by the San Diego County Traffic Safety Council in its drive against accidents to children as thousands of young people were closing their summer vacation activities and preparing to return to school.

"Children have a way of moving faster than the eye, and it is hard to keep up with them. Yet the only way we can hope to cut down on traffic casualties which claim so many of our children is t okeep a wary eye for their sudden and unpredictable actions," Ronald T. Strong, Traffic Safety Council president, said.

7 Children Killed

Seven children have died in Diego County so far in 1955 as a result of traffic accidents and last year the total reached 18 for the full 12 months. Strong explained.

Strong pointed out that while parents, schools and the police departments are working constantly for greater child safety on streets and highways, there still are many problems to be solved. He urged all parents and agencies to place special emphasis on the training of children in safety precautions and that added caution be urged throughout the county in connection with the opening of the new school year.

"Nationally last year there were more than 4,000 children killed in traffic accidents. We must put a stop to this needless slaughter. Let us all adopt as our personal slogan: "Drive Slow. Protect Our Children," Strong said.

Floodway Hassle Erupts Saturday

Swimmers and speedboaters had a hassle at the San Diego River Floodway Saturday, and John W. McGhee, director of Mission Bay Park ,again tried to pour oil on the troubled waters.

McGhee pointed out that the Pacific Power Boat Club has a City permit for exclusive use of the floodway on its racing days. He was quoted as saying, also, that the club may share the waters with swimmers and fishermen on other days.

Three police patrolmen were summoned to the area Saturday. They reported they found more than 100 angry swimmers and boatmen surrounding lifeguards who had tried to settle arguments concerning use of the floodway.

Search For 'Plane' Ends Wednesday

Hundreds of local residents flocked to Sunset Cliffs Tuesday night to watch the Coast Guard search for a plane reported to have crashed into the ocean.

Flares were dropped to illuminate the area, and helicopters flew low and swept the water with searchlights. No wreckage was found. The Coast Guard called off the search yesterday.

Mrs. H. C. Greaves Named Chairman Of United Success Campaign Here

Mrs. Harley C. Greaves, of 4382 Piedmont Dr., will head the United Success Drive on the Peninsula this year. Her appointment was announced yesterday by Mrs. Kirk B. Remlein, 875 Albion St., regional chairman for this area as well as Hillcrest, Mission Hills and Middle Town.

Mrs. Walter B. Broderick, chairman of the entire geographic division of the campaign, said a total of some 7,000 women will be needed to carry out the door-to-door campaign in the city.

Mrs. Greaves said that on the Peninsula she still needs one woman to serve as a district chairman. She also needs 60 for zone chairmen and 600 to volunteer as campaigners. She urged those willing to lend a hand in the campaign to call her at AC-3-1362 and said it is hoped that each campaigner will have only one square block to cover.

"For the first time," Mrs. Greaves said, "the public has decided that the United Success Drive should try to raise the amount that is needed by the community for Red Feather services instead of setting the goal at some lower figure that would be easier to raise. If we're to meet the basic need, everyone is going to have to pitch in and help."

"I think we'll do well on the Point," she added. "Point Loma and Ocean Beach women have a reputation for doing their share and doing it in a top flight way."

DEL MAR—Richest race in the history of this seaside course—the eighth running of the nationally-famed Del Mar Futurity—will ring down the curtain on the 1955 season here Saturday. BRIEFING—"Be sure to dial the first two letters of the prefix!" . . . Mrs. Mildred Sick receives a final briefing on use of the telephone from her 10-year-old daughter, Charmille, before she returns to elementary school Monday.

Many Children Are Better Dialers Than Their Parents, It Says Here

Note to local mothers with children of school age:

Don't think the number of times you have been saying, "Sorry, but you have dialed a wrong number," will decrease when many of the younger folks return to the classroom next Monday.

Telephone company statistics show many school children are better dialers than their parents.

Around 8,000 students in the higher elementary grades will receive a special course on telephone courtesy, manners, and dialing techniques as part of their regular curriculum this year.

Over 25,000 students passed the course with flying colors in the last three years. The telephone company says if parents would dial as this group, we wouldn't have the present incorrect dialing problem.

Handy Jim's FIXIN-UP TIPS For the Home

Old Door Becomes Table

AN OLD door may be converted into a sturdy play table for youngsters.

First select some old water or gas pipes that will serve as legs of the right height for the youngsters who will use the table. Fittings that screw on the door, at the corners, and into which the threaded end of the pipes will fit can be obtained at a hardware store. Similar fittings will protect the floor.

All hardware on the door should be removed.

Provide a smooth, splinter-free surface by attaching a panel of Masonite ⅛" Tempered Presdwood with 1" brads. Protect the children's fingers further by applying strips of this material to all edges. By putting on the strips first, the top panel will cover the edges and make a neat job.

The legs may be painted, and the new table top likewise primed and painted or given three coats of waterproof varnish. With a table like this, children can have fun, indoors or out, for years, as the sturdy construction and durable surface will allow all sorts of rough treatment. As the children grow, the table can grow with them—simply by increasing the length of the pipe legs.

Ocean Beach Woman's Club Starts Club Season With Luncheon Today

By MARIAN KRETTLER

Mrs. George Kenline, new president of the O. B. Woman's Club, entertained her staff recently at breakfast preeding her first board meeting. Mrs. Ralph Stothard received praise for the beautiful new year books done in gold and purple, and the work of our own Peninsula News.

Today the club was to celebrate the formal opening of the club season with a luncheon for members and guests. Mrs. Belle Benchley, of San Diego Zoo fame, was to be speaker of the day, accenting her recent world tour.

Mrs. Charles E. Hunter, literary chairman, announces the evening of September 12 at the clubhouse as the primary session for those interested in reviews. The meeting convenes at 7:45 p.m.

Mrs. I. A. Hegerle of Ways and Means Department will manage the rummage sale—also at the clubhouse—which takes place September 30th. Mrs. Hegerle is also sponsoring a series of card parties at the club on every Saturday evennig at 7:30, everyone invited.

These card events promise to be the most intriguing. While one retains the special partner for the evenings, there will be progression, so that everyone will have the opportunity for new acquaintance and fellowship. A proficient bridge player herself, Mrs. Hegerle has a vision of interesting the guests in tournament bridge — eventually. As the chairman stated at the board meeting. "No matter how long one plays bridge, there is much to learn about the fascinating game, and the competition of tournament grows on the player."

Mrs. Hegerle, whose phone number is AC-3-3721, will even go to the clubhouse on days when the parties impend to teach newcomers how to start with their highly competitive adventure. The first card party comes on September 10.

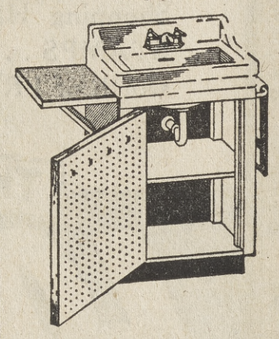
Handy Jim's FIXIN-UP TIPS For the Home

AN ENCLOSURE for a lavatory not only will enhance the appearance of the bathroom but will provide additional storage space.

In the plan illustrated, the inside of the door is faced with a Masonite "Peg-Board" panel.



Various items can be stored on it by means of metal hooks and fixtures which fit into the various holes. Both the perforated panel and fixtures are available at lumber yards.

The "Peg-Board" panel serves also to keep the enclosure ventilated.

Sides and bottom of the cabinet are Masonite Tempered Presdwood, a material which withstands wear and the high humidities of bathrooms.

AD LIBS

By ADALINE DUDLEY

MY SON MY SON—It was Parade Day at the Naval Training Center and the 9-weeks recruits were being put through their paces.

One mother, who had traveled far to attend the "graduation exercises", was sitting in the stands next to the commanding officer. She spotted her son in the formation and as the sailors began to march, she said slowly, "That can't be Junior. Nooo, that can't be Junior."

She watched the maneuvers several more minutes, then said definitely, "That just can't be Junior—unless they've taught him to walk."

As the company passed in review in front of the c.o., the mother stood up and cried out in awe, "It is Junior!"

BAD FOR BUSINESS—Lee McCurty, local hamburger king, donated hamburgers to all children who solicited for the March of Dimes last year. TV star Roy Hogsed, presented the refreshments on his TV show.

McCurty's small son, who had taken part in the campaign, was interviewed on the program and offered a hamburger. He turned it down.

"Wait a minute, son," said Roy. "You better come back here and get this hamburger or your Pa'll beat the daylights out of you when he gets you home."

MAIDEN VOYAGE — Louis Tramonti, 17 year-old San Diego Science Award winner, will get a chance to test his theory of boat building this week. He and his father, Albert Tramonti, are attending the Model Boat Pacific Division Regatta at Berkeley.

This will be the frist time he has raced "Colette", a streamlined model. Louis lives with his family at 956 Cordova.

VOYAGING MAIDEN — Arriving USA this week after an effervescent 2-months trip abroad is Miss Joanne Bovee, second grade teacher at Silver Gate school. Joanne visited ports in Northern Africa and Spain. Then she flew to Paris where she rented a car and toured Europe. England was her last stop before embarking for home.

HEARD AND LIKED—"Lord, fill my mouth with worthwhile stuff, and tell me when I've said enough."

Silvergate PTA Honors Teachers

New PTA board members of Silvergate Elementary School were hostesses at a luncheon honoring the teaching staff on Wednesday noon, September 7 in the school cafeteria.

The luncheon was arranged by Mrs. Fred Gentles. She was assisted by Mrs. Glenn M. Smith, Mrs. William Parker and Mrs. J. Crispell. Mrs. William Jungemann is the PTA president.

Registration of kindergarten children or children new to the Silvergate School district will be on Thursday, September 8 from 1 to 4 at the school. Kindergarten students or those new to the San Diego School district are asked to bring birth certificates or proof of age.

Parents of new kindergarten students and students new to the Silvergate School are invited by the PTA to attend a coffee get together in the school auditorium on the first day of school, September 12, between 8:30 and 11:30. Room Mothers' committee will be in charge with Mrs. Paul Vissat and Mrs. Gene Williams as chairmen.

DISTRICT PRESBYTERIAL LUNCHEON HERE SEPT. 23

Approximately 300 women are expected to attend the San Diego District Presbyterial luncheon Friday, Sept. 23, at 10 a.m. in the Social Hall of the Point Loma Community Church, it was announced.

The Rev. James H. Robinson of the Church of the Master, New York City, will be the speaker.

Mrs. Ben Huntington, luncheon chairman, will be assisted by members of Mrs. John Lamott's Group Two.

PIANO INSTRUCTION

Piano instruction is offered to adults by the Department of Adult Education of San Diego City Schools. Mrs. Edythe James will teach a beginning class on Thursday evenings and an intermediate class on Wednesday evenings, both classes at Point Loma High School.

Fundamentals of Music, note reading, chord work, and harmonizing will be among the activities which will enable students to master both clasical and populas rendition.

For further information on this and 137 other subjects, call the Northwest Adult High School HU-8-8385. No tuition.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

So many readers have asked "Just what is the purpose of the National Federation of Independent Business" it is felt some reply should be made.

* * *

While the issues that the column deals with are the most important, it is only because there is a National Federation of Independent Business that this column can accurately reflect the viewpoint of independent business over the nation on the issues.

C. W. Harder

* * *

Everybody is interested in business, the farmer and the worker. Prosperity or depression depends on the health of business enterprise.

* * *

While the Federation does not oppose Big Business because it is big, yet it is generally recognized today that the forces set loose by Big Business, Big Labor and Big Internationalism, with seemingly unlimited funds and resources, establish their viewpoints.

* * *

Yet the national prosperity and well being of the nation rests on the welfare of its 4,000,000 independent business firms, and even more important, on a climate prevailing that makes it possible for even more independent business enterprises to be launched.

* * *

By and large, it is this middle class which represents the backbone of any free enterprise system. This middle class, composed largely of independent businessmen, has been the target of every dictator including Joe Stalin.

When Big Business, Big Labor and Big Internationalism get into a "free for all" the collisions often eclipse atomic fission, and it is usually the independent enterpriser who is stepped upon.

* * *

It is impossible for Congressmen to thoroughly analyze all the thousands of proposed measures introduced in a session of Congress. Big Business, Big Labor and Big Internationalism have their skilled "experts" on hand to explain their viewpoint on every issue.

* * *

Yet, it is perhaps possible that more influential than all these is the work of the National Federation of Independent Business, because there are no "self-proclaimed experts."

* * *

Instead, opinions on issues are formed by the nation-wide membership by ballots called Mandates on questions affecting independent business. These voted ballots, or mandates, are sent to the respective Congressmen so that they know the majority opinion of the independent businessman of their districts with no doubts as to the authenticity of these opinions.

* * *

In turn, the majority decisions of the nationwide membership form the Federation's official stand on issues as they are discussed by the staff members of the Washington office before Congressional committees.

* * *

Thus, in answer to the many reader inquiries it can be said that the National Federation of Independent Business is an organization wholly controlled by its nationwide membership which is composed of independent businessmen anxious to see the free enterprise system not be shouldered out of American life as the Big Three tug and haul.

MULLING WITH MULLER

By Edna M. Muller

This may sound silly, in fact your neighbor may even eye you suspiciously, but believe it or not, if you toss a teaspoonful of moth crystals or a few mothballs into your garbage can during summer months you'll eliminate not only any odor but keep flies away as well. Of course you must replace the crystals whenever garbage is removed.

* * *

Alerting all women! There's something *very* special in store for us soon! Imagine having a coat that looks like beaver, feels like beaver, and as warm as beaver, yet at only a fraction of the cost? It's not impossible! This fabulous fabric, which inspired its own name — "Cloud No. 9"— is a Dynel and Orlon blend and is being fashioned into the most lavish-looking coats and jackets for fall introduction. Because the fabric is, technically speaking, lock-woven it won't shed, has greater wind-resistance *and*, although warm and snug, feels cloud-like on your shoulders! The versatility of smart styling to which "Cloud No. 9" lends itself is being expressed by leading coat manufacturers in Seal Jet—Breath O'Silva—Honey Blonde — and Beaver Brown, in better stores throughout the country. This beauty is hard-wearing, moth-proof and impervious to mildew and need not be "saved" for special occasions. Sounds like the perfect answer to the practical-minded and busy woman, and to coin a phrase — you'll be "living in a cloud" (No. 9).

* * *

It's wise to follow a few simple rules, especially in the summer, for handling foods. Fish salads and sandwich fillings which are so popular for picnics should be refrigerated immediately after preparation. Never attempt to keep the preparation in the ice cube section or freezer. When salad has been chilled, pack in thermal containers or insulated bags. It's most important to keep this food cold until you eat. In fact fish salads should not be kept longer than 3 or 4 hours even in the refrigerator!

In the world of bop musicians you haven't arrived until you're gone.—CHANGING TIMES.

WHO'S NEW IN POINT LOMA

When Mrs. William Kidd of Utica, Michigan visited her daughter here last year she decided Point Loma was the place she would like to live. Now she has her own home in the 3000 block of Evergreen.

Impressed with their friendly neighborhood are Mr. and Mrs. C. F. Kettner and their two children who have bought a home in the 3500 block of Xenophon. They formerly lived at 3702 Narragansett. Mr. Kettner is an engineer at a local aircraft company.

Having sold their avocado ranch in La Mesa recently, Mr. and Mrs. Larry Gerwig are busy getting settled in Point Loma. They have taken an apartment in the 3100 block of Garrison.

Their pleasure in moving into their home is being overshadowed right now by small son Gregory who has just arrived to be the third member of the Ralph F. Smith family. Mrs. Smith's mother has come out from Indiana to meet her new grandson.

Landscaping hold first place on the agenda for Mr. and Mrs. John J. Einhorn who have moved into their new home in the 1400 block of Carleton Square in Fleetridge. They formerly lived at 2673 Poinsettia Drive. They have a 12-year-old son, John.

Mr. and Mrs. R. W. Taylor of South Pasadena have rented a house in the 3200 block of Lucinda St. Mr. Taylor is division supervisor of the Pacific Telephone company.

It was a short move for Mr. and Mrs. H. A. Louie, 3814 Udal. They are now at home in the 1600 block of Chatsworth Blvd. Mr. Louie is with a local aircraft company.

Mr. and Mrs. Walter J. Gerber moved recently from 2952 Rosecrans to their new home in the 1600 block of Catalina Blvd. The Gerbers came to San Diego from Honolulu. They have two children, Charles, 15, and Jan, 14. Mrs. Gerber is known in Point Loma for her culinary arts and her world-wide recipes.

Loma Portal PTA Welcomes Teachers

Loma Portal Parent Teacher Association Executive Board was scheduled to honor and welcome their principal, Miss Sydnie Higgins and her staff at a luncheon today at 11:30 a.m. in the school cafeteria.

Mrs. Richard Gallagher, social chairman and her committee chose an "Indian Summer" theme for their first social event. Decorations were arranged by Mrs. Gerald Lutes, art chairman, and teachers and board members planned to wear their favorite squaw dresses.

Following the luncheon, Mrs. Charles F. McCabe, PTA president, and some of her board were to assist with the registration of kindergarten children and newcomers to the school. Registration was to start at one o'clock and continue until 4 p.m.

Mrs. Anthony Barnise, school education chairman, in charge of registration, assured all vacationers and latecomers that registrations can be made on the first day of school, Tuesday, September 12 at 8 a.m. in the school office.

HEALTH FOR ALL

"Cures" for tuberculosis have been reported for centuries. Anything from large doses of alcoholic beverages to horseback riding has been recommended. And, oddly enough, in spite of the most drastic types of treatment, patients have recovered.

What the human frame, even weakened by tuberculosis, has been able to rise above is constantly amazing. Even more amazing, perhaps, is the persistence with which people have sought a "sure cure" for tuberculosis. A tremendous amount of research—both genuinely scientific and strictly amateur—has gone into this problem. And still it is unsolved.

Recently a farmer in Germany offered a new possibility for a TB cure. One of his pigs had what seemed to be TB. He fed her cooked nettles (the plant urtica.) After three or four months of this diet the pig's cough disappeared. The farmer has offered his discovery to science for the benefit of humanity.

Don't Laugh, Please

It may not be as funny as it sounds. In recent years, science has stopped laughing at the ancient remedies of herb doctors. Some have been found to be of real value. No doubt, the farmer's nettles, too, will be scientifically tested to find out whether they have any real effect on tuberculosis.

In the last quarter of a century scientists have amassed quantities of knowledge about tuberculosis and the germ that causes it.

They have tested for antituberculosis effect every drug that has been developed for any disease. A few have been found of great value in treatment because they supress the germs so that the body is given a chance to heal itself.

Research goes on for better drugs to treat TB—and may come from something as unlikely as the diet of nettles.

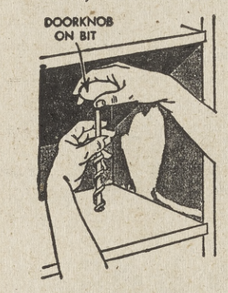
Handy Jim's FIXIN-UP TIPS For the Home

Door Knob As Brace

USING a door knob instead of a brace, when confronted by the need to bore a hole in a confined area, the craftsman can



proceed without trouble, as shown in the illustration from *Popular Mechanics*.

Simply slip the knob on the shank of the bit and tighten the setscrew so that the bit can be turned by hand.

The magazine suggests another emergency method: Use a ratchet wrench that has a square hole of the proper size for the shank of the bit.
